HEALTH & SAFETY POLICIES

HEALTH & SAFETY POLICY

View Point Resources Limited recognizes that safety is a management enterprise. Therefore, management and the workforce are responsible for ensuring the application of definite parallel safety knowledge. View Point Resources Limited recognizes the rights of workers to a safe working place, with safe access and egress, to be supervised by a competent person, to be trained in the correct methods which will allow them to work safely in a healthy environment with competent fellow workers. The company will provide, where reasonably practical, safe and healthy working conditions by encouraging maximum efforts towards preventing, avoiding, and reducing personal injury and damage to company equipment and property. The company has formulated standard procedures and a code of conduct that will allow workers and processes to be carried out safely. Employees will be inducted before commencing work at any site. Safety and health refresher courses will be enforced at all times to keep abreast of the challenging world of technology. Through constant vigilance, developing new safe ideals and systems, this will enable management and the workforce to build safety consciousness to detect, prevent, and minimize loss to both human beings and machinery.

In legislation relating to the mining industry, a hazard is defined as "anything that may result in injury to a person or harm to the health of that person." The risk is the exposure of persons to hazards and is defined as "the probability of that injury or harm occurring." Note: hazards are present in the workplace, and controls are in place to ensure that the associated risk is minimized. It is important that all employees are able to determine and identify hazards. Once identified, controls can be put in place to ensure that the risk is minimal.

RISK MANAGEMENT POLICY

Management and the workforce will together control major elements in order to reduce risk in the operations. These elements are people, environment, materials, and equipment. The control of these elements will reduce physical damage, harm to people, damage to equipment, loss of production situations, and waste of resources. The company shall ensure that all machinery, plant, and equipment are of suitable material for the job. Such machinery, plant, and equipment, and all parts working gears, whether movable or fixed, including anchoring and fixing parts of appliances of all machinery, plant, and equipment used as, or forming any lifting appliance, and all plant or gear used for anchoring or fixing such appliance shall, as far as construction permits, be inspected for defects periodically and results logged in the safety book by a competent person before the commencement of any works. The relevant authority shall identify the risks involved in such works and conduct a comprehensive risk assessment. This document shall be banked, and all concerned shall be given a copy for guidance.

Social Sustainability

View Point Resources Limited is aware that people spend more than eight (8) hours at their work place. Hence the need to implement a work place that sensitize and disseminate information to the employee about various health cross cutting issues such as HIV and AIDS, mental health and physical wellness.

We encourage our employee to go for VCT and to come out in after being tested without fear of being discriminated against view point resources limited promotes the usage distributing condoms at work.
It is our plan to occasionally train our employees in peer affected concerning HIV and AIDS

View Point also understands that one of the main reasons most communities have high infection rates is due to poverty especially among low income families hence we have deliberately created initiatives that will empower economic transformation among these groups through providing small grants, training and empowerment programs to help alleviate poverty in the communities where we operate.
